

Accessories for Olivin 2

The little tent with big possibilities

Inner tent and half inner tent

An inner tent with integrated floor is included with Olivin 2 Combi but can be bought as an accessory for Olivin 2 cp and Olivin 2 light. A half inner tent is also available as an accessory for both Olivin cp and light.

Key features

- Offer more reliable protection against insects
- Protect against condensation which is especially important for Nordic tipis made of lightweight material
- Have large ventilation openings fitted with mosquito nets for improved natural ventilation
- Have a sturdy floor that withstands ground dampness, a common problem in lightweight tents

Floor

The floor is designed to make it possible to remove or fold away the part nearest the door to avoid having dirty shoes and crumbs on the tent floor. It is made of a carefully chosen standard material of Comfort class.

The floor must be folded away before a microstove or open fire is used.

Key features

- Fits both Olivin 2 cp and Olivin 2 light
- Need not be detached when packing the tent

Rain roof

The rain roof is available in both cotton/polyester and lightweight fabric. The roof provides rain protection over the entrance. It is attached to the accessory sleeve which is now a standard feature of all Olivin tents. For the older version with no sleeve (serial number lower than 52903), an accessory connector can be bought.

You do not need to pack separate poles since the rain roof can be put up using one or two hiking sticks (not included).

Key features

- Provides both shade and rain protection in front of the door
- Fitted quickly and easily
- Not intended to resist strong winds and snow and can easily be removed in bad weather

Accessory connector 2 light

Tentipi

- has its roots in Swedish Lapland – the homeland of the Sami káta
- stands for passion and expertise, especially when it comes to Nordic tipis
- has three decades of experience as the world-leading manufacturer of Nordic tipis
- has several patents and design rights for its original, ingenious design
- cares so deeply about its products that it only makes its Nordic tipis in its own fully-owned factories
- exposes every fifth tent to a full-scale rain test
- views every Nordic tipi as a unique product and gives it a personal ID to make it possible to track its components and specific design
- cares about previous customers by always striving to make new features also fit the older models of tents.

Why people choose Tentipi®

Because they think it is worthwhile investing extra money in order to get a superior product.

Because they believe that Tentipi's sole focus and passion for Nordic tipis give a better functioning and more reliable Nordic tipi.
